

# ClustrixDB Documentation

## Using ClustrixDB

- [MySQL Compatibility](#)
- [Migrating to ClustrixDB](#)

## ClustrixDB Administration

- [Getting, Installing, Upgrading ClustrixDB](#)
- [Backup and Restore](#)
- [Cluster Management](#)
- [Server Monitoring and Logs](#)
- [Variables](#)
- [System Tables](#)
- [User and Server Security](#)

## High Availability and Performance Tuning

- [Fault Tolerance and High Availability](#)
- [Replication](#)
- [Managing Data Distribution](#)
- [Evaluating ClustrixDB Compatibility and Performance](#)
- [Optimizing Query Performance](#)

## ClustrixDB Architecture

- [Concurrency Control](#)
- [Consistency, Fault Tolerance, and Availability](#)
- [Data Distribution](#)
- [Evaluation Model](#)
- [Query Optimizer](#)
- [Rebalancer](#)

## Programming and Customizing ClustrixDB

- [Stored Routines](#)
- [Triggers](#)

## About ClustrixDB

- [Why ClustrixDB](#)
- [Key Features of ClustrixDB](#)
- [FAQ](#)
