

MariaDB Xpand Documentation

Using MariaDB Xpand

- [MySQL Compatibility](#)
- [Migrating to Xpand](#)

Xpand Administration

- [Getting, Installing, Upgrading Xpand](#)
- [Backup and Restore](#)
- [Cluster Management](#)
- [Server Monitoring and Logs](#)
- [Variables](#)
- [System Tables](#)
- [User and Server Security](#)

High Availability and Performance Tuning

- [Fault Tolerance and High Availability](#)
- [Replication](#)
- [Managing Data Distribution](#)
- [Evaluating Xpand Compatibility and Performance](#)
- [Optimizing Query Performance](#)

Xpand Architecture

- [Concurrency Control](#)
- [Consistency, Fault Tolerance, and Availability](#)
- [Data Distribution](#)
- [Evaluation Model](#)
- [Query Optimizer](#)
- [Rebalancer](#)

Programming and Customizing Xpand

- [Stored Routines](#)
- [Triggers](#)

About Xpand

- [Why Xpand](#)
- [Key Features of Xpand](#)
- [FAQ](#)
